Reflection

Did you download the book laws of growth by John Maxwell?

If so, be sure to ask friend to read the book with you to hold you accountable for your business growth plan.

What area do you feel that you need to improve in your business?

Do you have a plan to increase your business knowledge? If so, what classes or workshops are you planning on attending?

How do you plan to grow your business in 2013?

Who will be your accountability partner?

How often will you review and strategize about your growth plan?

What are your goals for 2013 and how are they related to growing the business?

I suggest that you purchase a business journey and focus on one goal at a time. As you accomplish a goal, celebrate and move on to the next goal. Stay focused!

The one thing that will hinder your success is a lack of focus!!

Much success to you in the New year!

Shiketa
